Summary and Analysis Chapter 10. Summary. In this chapter, Gene travels by train to Leper's house. As he stops for coffee, he concludes that Leper's "escape" must have been from spies. The legend of Leper, created in fun at Devon, seems to have come true. As Gene approaches the house, he notices Leper watching him from a window, not moving even as Gene stands at the front door.

Chapter 10

Theory Overview. Transactional Model of Stress and Coping. A framework for evaluating processes of coping with stressful events. Stressful experiences are construed as person-environment transactions, in which the impact of an external stressor is mediated by a person's appraisal of the stressor, and the psychological, social, and cultural resources at his or her disposal.
