### Everything Wrong with Cooties (Zombie Sins)

Coontie is a woody plant with a thick, soft stem that appears like a trunk but it is mostly made of storage tissue and negligible true wood tissue. The other thing that makes Coontie special is that it is the sole larval food for the Atala butterfly. Coontie has historically been an important starch source to Native Americans and early settlers.

Cooties is a fictitious childhood disease. It is used in the United States and Canada as a rejection term and an infection tag game (such as Humans vs. Zombies). It is similar to the British 'dreaded lurgi', and to terms used in the Nordic countries, in Italy, Australia and New Zealand. A child is said to "catch" cooties through close contact with an "infected" person or from an opposite-sex ...
