Lazer Engine

The first Lazer engine was fired up in 1983. Since then Lazer engines have been continuously updated and improved with new production techniques and materials. Lazer engines have powered the winning models at 3 World F4c scale championships, over 25 British National Championships and countless other competitions over the world.

Welcome To Lazer Engines

SeminNex's patented Lazer Engine is an integrated laser diode assembly designed for manufacturers of high volume medical and other low-cost hand-held applications. It is inexpensive to assemble and can be tailored to fit a customer's needs. It has ultra-high volume capabilities, a high power output, large dynamic power range, and great efficiency.

Single Cylinder Engines | Lazer Engines

The engine is ideal for big scale aircraft due to its layout, excellent throttle response, smooth running and ease of handling. The crankcase and radial mount assist in keeping the engine cool meaning the 360v is very tolerant of being under a cowling. At low rpm on large propellers the engine has a distinctive and realistic sound.

Laser propulsion is a form of beam-powered propulsion where the energy source is a remote (usually ground-based) laser system and separate from the reaction mass. This form of propulsion differs from a conventional chemical rocket where both energy and reaction mass come from the solid or liquid propellants carried on board the vehicle.

Base Lasers carry a 92 hp (69 kW) 1.8 L four-cylinder engine, whereas a 135 hp (101 kW), 2.0 L DOHC four-cylinder was optional with the Lazer RS. The top-of-the-line RS Turbo uses a turbocharged 2.0 L rated at 195 hp (145 kW). A five-speed manual transmission was standard.

Plymouth Lazer - Wikipedia

It features the same welded, heavy-duty, 1.5"x 3" tubular steel unibody frame found throughout our Lazer Z models. You can also choose from two rugged Kawasaki® V-Twin engines or a Kohler® Command™ EFI engine matched to a full-floating, UltraCut™ Series 4 cutting deck, in 48, 52, 60 or 72 inch widths. A digital operator diagnostic module simplifies system monitoring and troubleshooting, while the fuel gauge uses ultrasonic waves to provide a more accurate reading.
