Subaru Ej22 Engine Review

The Ej22 is probably the most reliable Subaru engine with a very bulletproof block. The engine life is more than 250,000-300,000 miles. There are many cases when these engines run more than 500,000 miles mileage without serious problems.

Subaru Ej22/EJ22T/EJ22G 2.2L Engine Review

The Subaru EJ engine is a series of four-stroke automotive engines manufactured by Subaru.They were introduced in 1989, intended to succeed the previous Subaru EA engine.The EJ series is the mainstay of Subaru's engine line, with all engines of this series being 16-valve horizontal flat-fours, with configurations available for single, or double-overhead camshaft arrangements (SOHC or DOHC).

Subaru EJ engine - Wikipedia

the 1996 Ej22 is about one of the most reliable engines subaru ever produced. if you don't overheat it or run it out of oil it is almost guaranteed to outlast everything else on the car. if the engine is running fine i would prefer a proper reseal over a used engine.

Differences between ej22's | Subaru Outback Forums

Subaru's flagship model the WRX and STI have all been powered by this engine series until 2015 when the WRX name dropped the EJ25 and added a BRZ variant of Subaru's new motor the FA series.

Subaru engines are well respected for offering a great combination of power, fuel efficiency and reliability in a similarly sized and designed motor to the stock VW power plant, the Air Cooled Vanagon motor, the VW Water Boxer and the Subaru EJ22 and EJ25 (known as "Boxer" engines, in which the pistons are horizontally opposed and lay flat).

Subaru EJ25 Engine Conversion Review - LIVE THE VAN LIFE

Part 5 - Subaru EJ22 Engine Prep. In this article we will walk through the process we took to prepare the Subaru EJ22 motor for installation into the Vanagon engine bay. This may sound intimidating but nearly everything can be done with simple tools, but there is one specialty tool necessary for aligning the clutch.
